

**You Just Spent Months And Thousands Of Dollars
To Find The Right Leader.
You Expect to See Immediate Results.**

Consider this:

- 30-40% of executives derail in the first 18 months
- 50% of executives will quit or be fired within 36 months
- This cost represents at least 10 times their salary expense

Even the most skilled leaders fail because there are no clear rules of engagement.

Don't Become a Statistic. Why leave it up to chance?

***With Speed to Results,[®]
a proven performance acceleration program, your leaders
will focus on the right priorities at the right time.***

Speed to Results[®] is a customized program that reduces the learning curve and increases speed to proficiency by allowing your new leader to:

- Execute your organization's strategies and goals quickly by achieving key priorities that need to happen within the first 90 days.
- Establish effective communication with stakeholders through a comprehensive communications plan to targeted audiences.
- Engage and align management, peer, and employee relationships via cultural and team assessments.
- Enhance executive credibility and presence by participating in ongoing feedback.
- Impact your bottom line as soon as possible as a result of accountable processes and metrics.

**Performance Velocity[®] is your partner in combining
